Take card .

▶ Milk the cow outdoors:  $21 + 34 = 55$ .  
Take card .

Then, you can pop the balloons with the needle and go inside the room:

$52 + 25 = 77$ .  
Take card .

## THE BEDROOM 77

- ▶ First fight the aggressive robot (**R**) by splitting its head in two. Follow the dotted line. You observe that it forms a 0 and a 7. Take card **7**.

- ▶ To open the bathroom door (**23**), connect cards **D**, **Y**, and **Z**. The drawing shows you how the family members dress. When card **Z** is placed on top of card **Y** to put together the outfit (top and bottom) of each person, you form 4 numbers at belt level. From left to right, you obtain 9, 1, 5, 3. That's the code (**9153**)! Enter it in the app.

## THE BATHROOM B

- ▶ Heat the egg under Noside's skull-dryer: **36** + **11** = **47**. Take card **47**.

- ▶ Then, send the baby magpie to retrieve the shiny object: **-14** + **47** = **61**. Take card **61**. The nest (**N**) full of shiny objects reminds you that magpies love them.

This shiny object is exactly what you need for winding the clacking spring-powered dentures: **61** + **4** = **65**. Take card **65**.

Look closely at the bathtub bottom and pull the stopper off (number 49). Take card **49**.

- ▶ Then, go back to the living room and block the diabolical machine hidden in the hearth with this stopper: **-9** + **49** = **58**. Take card **58**.

- ▶ Take card **Q**: you are locked up in a cage. But the padlock gives you a hint. 1 = ONE; 2 = TWO; 3 = THREE... What matters is the number of letters forming these words. See Noside's memo that reflects in the pan: 5049. FIVE, ZERO, FOUR, and NINE are four-letter words. Enter **4444** in the app to free yourselves.

## THE KITCHEN

K

- ▶ Now, connect the wheat to the clacking spring-powered dentures to obtain flour:  $1 + 65 = 66$ . Take card  $66$ .

Then, attire James the mouse in the snorkeling gear retrieved from the bathroom:  $3 + 27 = 30$ . Take card  $30$ .

Thus attired, he can dive into the bucket of milk to churn it:

$$30 + 55 = 85. \text{ Take card } 85.$$

- ▶ You now have butter and the four ingredients of the recipe (U).

Turn on the Cak-O-Matic (machine  $24$ ) and pay attention to the symbols (shapes and colors) in the upper right corner of cards  $A$ ,  $0$ ,  $66$ , and  $85$ .

Follow the instructions of the Cak-O-Matic using the recipe (U):

▲ ▲ ▲ ◆ ● ? ● ◆ ●

Then take card  $78$ .

- ▶ Let the cake cool down on the edge of the window:  $78 + 16 = 94$ . Take card  $94$ .

- ▶ Now, the app lets you regularly know that it is 3:00 p.m. Go back to the bathroom and fix the hands of the clock (machine  $93$ ) on 3 o'clock. The hands then form an "L". Take card  $L$  to clear the access to the secret laboratory.

## THE SECRET LABORATORY

L

- ▶ Place the honey on the catapult:  $2 + 10 = 12$ . Take card  $12$ .

You can retaliate against Noside and his favorite weapon:  $12 + 72 = 84$ . Take card  $84$ .

- ▶ If it is true that bears like honey, combine cards  $94$  and  $84$ :  $15 + 84 = 99$ . Take card  $99$ .

## THE SECRET LABORATORY (cont'd)
